VOLUNTEER EXPERIENCE

Ran Tong Elephant Save and Rescue Center - *Chiang Mai, Thailand*

July – August 2016

- Aided with the cleaning and maintenance of the facility, providing care for the elephants and other animals.
- Built a bamboo fence around the facility to protect the animals from crossing roads.
- Created a lesson plan and taught English to schoolchildren in Ban Chang.

Lydon Lab, McGill – *Montreal, Quebec*

2015

- Aided research assistants in preparing to run an experiment, ensuring that the procedure was effective and efficient.

PROJECT WORK

Website Development

2015-2017

- Created a small website in spare time to showcase projects I've made using p5.js drawing / animation software. Integrates HTML, CSS, JavaScript, p5.js, and Firebase.
- Constructed a mini theme-based social media website integrating parts from C, Python, Perl, HTML, CGI, and Bash into a single application. Back-end functions included a member registry and photo/text uploads associated with a member.

SKILLS & INTERESTS

Coding/Computers: Java, Python, C, JavaScript, HTML, CSS, Microsoft Office, p5.js, Windows, Unix, Linux
Other: Cooking, E-Sports, Game Design, Trombone, Piano, Stand-Up Comedy
